

QUIT YOUR JOB DAY

Sept 18th. 2006

The goal of Quit Your Job Day is to reverse the advantage perpetuated by an elitist class who profit from your actions without making any personal investment in you as an individual. If you don't know who profits from your hard work, I assure you that they care very little about you. The prevailing view is that you need a job to survive and that you need the job more than the employer needs you. What most people don't know, and those who profit from your skill and effort certainly don't want you to hear, is that your employer needs you to survive as well.
